1899.

NOTICE TO CREDITORS.

IN THE MATTER OF THE ESTATE OF R
FLETCHER, LATE OF THE TOWNSHIP OF RIC
IN THE COUNTY OF LENNOX AND ADDI
YEOMAN, DECEASED.

Notice is hereby given pursuant to the
statutes of Ontario, 1897, Chapter 129, sec
that all persons having claims against th
of Robert Fletcher, late of the Township of
Richmond in the county of Lennox & Addington,
yeoman, deceased, who died on or about the
6th. day of January, A. D. 1899, are required
to send by post prepaid or to deliver to Messrs.
Deroche and Madden of the Town of Napanee
in the county of Lennox & Addington, solicitors
for Alvin Vanaalstine, executor of the last will
and testament of the said Robert Fletcher, on
or before

The 22nd day of February,

A. D. 1899, their names and addresses and
description and a full statement of the particulars
of their claims and the nature of the security
(if any) held by them verified by affidavit. And
that after the said 22nd. day of February A. D.
1899, the said executor will proceed to distribute
the assets of the said Robert Fletcher, among
the parties entitled thereto, having regard only
to the claims of which notice shall have been
given as above required. And the said Executor
will not be liable for the said assets or any part
thereof to any p-rson or persons of whose claim
notice shall not have been received, duly verified,
by said Executor at the time of such distribution.
Dated at Napanee this 19th. day of January,
A. D. 1899.

Deroche & Ma'den,
Solicitors for the said Executor, Alvin
Vanaalstine.

J. F. SMITH.

PERSONALS.

Miss Lillie Keech is visiting friends at Odessa.

Mr. Rud Perry left for Ottawa on Monday morning.

Mr. Elgin Storms, of Chicago, passed through Napanee on Wednesday to attend the funeral of his mother, Mrs Miles Storms, Moscow.

Mrs. Sidney Warner and Miss Harriet E. Clark left for Belleville on Wednesday evening.

Mrs. G. W. Shibley, of Picton, was in town on business on Wednesday.

Mr. E. Vanluven, merchant, Moscow, was in town on Tuesday.

James Lewis, Robt. Miller, John Carr, Wellington Babcock, of Witten were in Napanee on Saturday.

Peter Johnston, of Camden East, attended the euchre party at Mr. Jack Ham's on Friday evening last.

Miss Fanny Ballard, of Madoc, returned home on Saturday after a week's visit with her brother and friends at Newburgh.

Miss Edna Shorts, Newburgh, and Miss Ballard, Madoc, were callers on friends in town on Saturday.

Rev. W. Linbert, of Selby, is recovering from an attack of the gripple.

Mrs. J. B. Blanchard has been visiting her daughter, Mrs. F. W. Coates, Kingston, who has been quite ill.

Lachlan McGoun was in town last week.

W. R. Huffman, of Bathgate, Dakota, is visiting friends in this district after an absence of fifteen years.

Nathan Fellows, of Fellows, is recovering from an attack of malarial fever.

Mr. and Mrs. Chester Petr and Mrs William Thompson, of Thorpe, were in Napanee on Saturday.

Mr. and Mrs. J. L. Boyes and Miss Redner left for Toronto on Tuesday morning. Joe Mooney left for Ottawa this week.

Judge Wilkison is confined to the house with a severe cold. We hope for his speedy recovery.

Miss Tillie Priest will be removed to the Kingston General Hospital, where she will undergo an operation for appendicitis.

Mr. Jas. Hosey is ill and his death is hourly expected.

BIRTHS.

HUFFMAN—At Napanee, Jan 27th., to Mr. and Mrs. Thomas Huffman, Thomas Street, a son.

BOTTING—On Monday the wife of Mr. C. T. Botting of a son.

In buying window shades see that you get a "Hartshorn" roller if you wish your blinds to work satisfactorily. Shades of all kinds, the largest stock in town, at Pollard's Bookstore.

Unappreciated Smartness.

"I thought," said the man who had just entered the great statesman's office, "that you believed in progress."

"I do," the great statesman answered. "I believe that destiny has selected this nation to carry the banners of liberty and enlightenment to the uttermost parts of the earth."

"Still," said the caller, "I noticed upon

UNDER THE DEEP SEA

HOW THE HEAVILY LADEN DIVER GOES ABOUT HIS WORK.

His Dress Weighs Nearly Two Hundred Pounds and Is a Very Complicated Affair—The Signalman Holds the Diver's Life In His Hands.

The dress of a fully equipped diver weighs, in round numbers, 170 pounds. Taking off his everyday garb, the diver pulls on his thick underclothing—a white knitted sweater and trousers and a pair of ribbed stockings, also white. Should he intend to work in unusually deep water, he puts on two, sometimes three, sets of underclothing, to relieve the pressure of the water.

The woolen clothing donned, the next garment is the diving dress, measuring for a man of average height 5 feet 5 inches from the collar to the sole of the foot. This dress is made of solid sheet india rubber, covered on both sides with tanned twill. It has a double collar; the inner one to pull up round the neck, and the outer one, of red india rubber, to go over the breastplate and form a water tight joint. The cuffs also are of red india rubber and fit tightly round the wrists, making, when secured by the vulcanized india rubber rings, water tight joints, at the same time leaving the diver's hands free. In the outer collar 12 holes are bored for securing the breastplate. This is made of tinned copper. The outer edge is of brass and has 12 screws firmly fitted to it at intervals and projecting upward. These projections pass through the corresponding holes in the outer collar of the dress.

The band of the breastplate is in four sections, and the holes in the sections pass over the protecting screws and are secured in place by wing nuts or thumb-screws. A little careful consideration will make it clear that the dress is held in position by its rubber collar, with the aid of the breastplate flange and wing nuts.

The upper edge of the breastplate is fitted with a neck ring and a segmental screw. The use of this we shall presently explain.

The boots are of stout leather, with leaden soles, and are secured over the instep by buckles and straps. The pair weighs 32 pounds—four pounds over the quarter of a hundredweight. The lead soles are firmly attached by copper rivets. The tongues of the boots are very wide. Boots intended for rough work are fitted with metal toe caps. Thus far—underclothing, dress, breastplate and boots—is our diver arrayed. He has now to be weighted. Lead weights of 40 pounds each, shield or heart shaped, are suspended back and

Pearson's Weekly.

Nathan Fellows, of Fellows, is recover-
ing from an attack of malarial fever.

Mr. and Mrs. H. Vanluven and family,
of Manitoba, are visiting friends in this
vicinity.

Mrs. J. L. Boyes and Miss Olive Redeer
were at home to a number of their friends
one evening last week.

Miss Georgia Daly is visiting friends in
Picton.

G. F. Dean, of Selby, has secured a
diploma from the Belleville Business Col-
lege.

Abram Winters, Selby, favored us with a
call on Monday.

Miss Ada Neilson has been very ill
at her home in Brooklyn, N. Y. Miss
Maggie Gordanier left last week to attend
her.

Archie McCale is recovering from a severe
illness.

Miss Tillie Priest is very ill.

T. J. Winters, Kingsford, has been en-
gaged as cheesemaker of Selby cheese
factory.

Mrs. Jas. Hoesy is still very ill with
Grippe. Others who are suffering from the
epidemic are Mrs. J. Smith, Mrs. Perry,
Mrs. Jas. Vanalstine, Mrs. D. Daly, Miss
May Bentley and Miss D. Cliff.

S. J. Cape son, Nanawee Mills, received
word this week that his father, who resides
in Copenhagen, Denmark, has been knight-
ed.

Ed. Franciaco is attending the races at
Ottawa this week.

Rev. S. Tighe, Amherst Island, is ill at
the Kingston General Hospital.

Miss Bertha Holder, of Kingston, was
married on Wednesday to Harry S. Hinds,
of Binghamton, N. Y. The bride at one
time conducted a dancing class in Nap-
anee.

Mrs. Thos. Jamieson is ill with grippe.
Mr. D. W. Ball, reeve of Bath, gave us
a call on Monday.

Mrs. W. A. Baker is recovering from the
grippe.

Mr. A. D. McRossie is in poor health.
Genial John Lowry is having a combat
with grippe.

Dr. Burrows, Marlbank, was calling on
friends in town on Monday.

Miss Kate Ross is visiting at her home
in Peterboro.

Mr. and Mrs. C. A. Graham celebrated
the twenty-fifth anniversary of their wed-
ding day on Saturday.

Thos. Burley and F. D. Miller are in
attendance at the Ottawa ice races this
week.

Mrs. H. D. Kelly, Toronto, is visiting
her mother Mrs. L. M. Goun, who still re-
mains in a precarious state of health.

Miss Penton is visiting at her home in
Walkerton.

Mr. and Mrs. Ella McCabe, of Gre'na,
were in town on Wednesday. Mr McCabe
favored us with a call.

Mrs. Richard Carr and Miss Lillie Carr,
of Dorland, were in town on Saturday.

F. M. Smith is again behind the wicket
in the Merchant's Bank almost fully re-
covered from his recent severe illness.

Rev. Swayne conducted the services at
Adolphustown, Hay Bay and Sandhurst
last Sunday.

Manager Botting and Frank Smith were
at Picton cheering on the boys on
Wednesday.

Chief Adams accompanied the hockey
club to Picton on Wednesday. He says
Picton men played a very rough game.

Miss Markie Grieve is recovering from
a severe attack of quincy.

Among those who accompanied the hock-
ey team to Picton on Wednesday were
Messrs. Earn Hall, Jos. Bennett, Dr. Brad-
shaw, Wm. Yerex, F. Calder, A. McMillen,
W. Boyes, S. Wales, E. J. Pollard, F. Rikly,
and E. Grieve.

the earth."

"Still," said the caller, "I noticed upon
your door, when I came in, a card with
these words printed on it, 'No open door
policy here.'"

"A plague on that office boy!" said the
great statesman. "I'm afraid I'll have to
fire him in spite of the fact that his moth-
er is a poor widow."—Cleveland Leader.

Looking For Him.

Farmer Hittom strode up to the negro
cabin with a whip in his hand and a scowl
on his brow.

"Where'd you git that air turkey?" he
demanded, pointing to one that lay on
the table.

"I knows," volunteered little George
Washington Snowball. "Santa Claus
brought hit."

"Huh!" grunted the farmer, grasping
the whip more firmly. "He's just the
man I want to see. Is your pa in?"—
Comic Cuts.

Evidently Ignorant.

"This man must be an awful ignora-
mus," said the answers to correspondents
man.

"What does he want to know?" asked
the idle assistant editor.

"Wants to know if campaign glee clubs
are for the purpose of creating party har-
mony."—Cincinnati Enquirer.

A Missing Ceremony.

"Do you think this here Philippine
question is in the way to get straightened
out?" said Mrs. Cornstossel.

"I dunno," answered her husband,
"but I'm afraid not. I haven't heard of
any banquets beln got up so's to have af-
ter dinner speeches on it."—Washington
Star.

Speaking From Experience.

The Pupil—I wonder how it is that the
blind receive more consideration from us
than the deaf?

The Philosopher—The reason is plain,
my son. It is because they are able to
listen to our old stories and yet are unable
to see our shady actions.—Ally Sloper.

Suited Him.

The Puglist—Say, but the part of
Othello is just me style.

The Patron—Could you play it?
The Puglist—Sure! I never saw
body yet I couldn't smother in two rot
—New York Journal.

Advantage of Wealth.

"How rich would you like to be?"
"Oh, I don't know the exact fig
but I would like to be rich enough to
clare publicly that Shakespeare was a
to me."—Cincinnati Enquirer.

The Claims of Friendship.

Substantial Friend—Oh, Chrissie,
my bicycle has collapsed, and I was i
ter despair till I remembered you had
got a lovely new one, and I knew y
lend it me directly!—Punch.

W. S. DETLON, Druggist

weights of 40 pounds each, shield of
heart shaped, are suspended back and
front by means of gun metal clips and
studs or tabs and lashings. He has now
only to put on his helmet and to affix
the air pipe.

The helmet, like the breastplate, is
of tinned copper and is fitted with a
segment bayonet screw at the neck, cor-
responding to that mentioned as belong-
ing to the breastplate. The eighth of a
turn, and the helmet is firmly secured,
being both air and water tight. It has
three strong plate glasses in brass
frames, protected by guards, two ova
at the sides and a round one in front.
The front can be unscrewed to enable
the diver to give orders without remov-
ing any other portion of the dress. An
outlet valve is provided at the side o
back of the helmet, which the dive
can close should he wish to rise to th
surface. This valve allows the breathe
air to escape, yet prevents the entranc
of water.

At the side of the front glass is a
mechanical arrangement for getting rid
of the excess of air, and it also assist
when the back outlet valve is closed in
regulating the expansion of the dres
in rising to the surface. There is als
an inlet valve, and this is constructe
so as to allow the air to enter, but no
to escape, in case of a break in the ai
pipe. The air pipe is made in lengths o
from 45 to 60 feet, fitted together by
means of gun metal joints. Securely
connected with the helmet by means o
the inlet valve and an elbow tube, th
other end of the air pipe is fitted on t
the nozzle of the air delivering diving
pump.

His leather belt is buckled on, his
knife, well sharpened and of strong
steel, covered with a metal case to keep
it dry and intact, is slung upon it, and
after taking a drink, or a little light
refreshment, the word is given, "All
right," the face glass screwed on, and
receiving a tap on the helmet as a sig-
nal to descend down he goes by rope or
ladder, either of which must be weight-
ed at the bottom.

News Summary.

Recent Happenings Briefly Told.

CANADA.

London hackmen have organized a union.

London's fire losses in 1898 totalled \$55,000.

Poultry thieves are busy around Kingston.

Three Indians and a white man will be hanged at Dawson on March 2.

Winnipeg's population is estimated by the directory publishers at 49,000.

Wolves are reported to be doing a good deal of damage in some parts of Manitoba.

St. Andrew's Presbyterian church, London, will erect a \$25,000 Sunday school building.

Haslem Greene, of Winnipeg, collector for a lumber firm, dropped dead Thursday night.

The new Victoria bridge at Montreal will be opened for vehicles and foot traffic by the end of May.

The Mounted Police estimate that Klondike will produce \$50,000,000 worth of gold during '99.

It is stated definitely that the C.P.R. will not erect a new station at Winnipeg this year.

Mr. Wm. Mackenzie, of Toronto, states that the Dauphin Railway line will be known in future as the Canada Northern line.

Lieut. Adams, R. E., a graduate of the Royal Military College, Kingston, has been appointed Manager of the Nile Delta railway.

Woodstock Board of Trade will hold another meeting shortly to advance the agitation for the incorporation of the town as a city.

The Montreal Butchers' Association has unanimously resolved to raise the price of beef from 1 cent to 2 cents a pound, according to quality.

Fifteen or eighteen men connected with A Battery, Kingston, who married without permission of the authorities, are to receive their discharge.

Quebec City has accepted from the Champlain monument committee the gift of the monument to Champlain recently erected on Dufferin terrace.

A. H. Skirving, formerly chief of police at Chatham and Ingersoll, has been appointed chief of the Lake Erie and Detroit River Railway detective force.

The promoters of the Hamilton stock yards claim to have all the capital they desire subscribed, and say the concern will be in operation in three months.

It is said the Imperial authorities are anxious to have A Battery, R. C. A., sent to England, in exchange for a battery of Royal Artillery, to be stationed at Kingston.

The Intercolonial Railway is now said to be on a paying basis, and there is reason to believe that it will show a surplus at the end of the fiscal year on the 30th of June next.

The Intercolonial Railway is now said to be on a paying basis, and there is reason to believe that it will show a surplus at the end of the fiscal year on the 30th of June next.

Mrs. Vin and Sam Parslow, of St. Scholastic, who are to be hanged on March 2, have given up hope of reprieve, and are spending much of their time in prayer.

Master Willie Caudwell, aged 17, son of the late Mr. George Caudwell, died Thursday in Brantford from meningitis. This is the third death in the past six months in the family.

The Army and Navy Veterans' So-

At the beginning of the 18th century people were hanged in Great Britain for the illicit manufacture of salt.

The railways of England and Scotland derive a larger revenue from their goods than from their passenger traffic.

During the last 10 years of Great Britain show that 237 women reached the years or more.

It is rumoured that a company purchase the Lyceum Theatre and that Sir Henry Irving appear there for a season of 100 nights.

Ernest T. Hooley has failed in an action against the publishers of the London Special for having published comments on certain of his transactions.

Cecil Rhodes has abandoned for the present his scheme for a rail line from the Cape to Cairo, and will ask a guarantee for the extension of the railway to the Zambesi.

Sir Henry Campbell-Bannerman has practically assumed the leadership of the Liberal party in England, and is trying to get it in some sort of shape for the coming meeting of Parliament.

Mr. William Watson, the British poet, has received a legacy which raises him above fear or care as far as money goes. As he is still very young a great career is now predicted for him.

Mrs. C. Buck attained her 100th birthday at Beccles on January 7. She was born in the parish of Woodton, Norfolk, on January 7, 1799. She boasts that she "never told a story in her life."

Off Devonport the British battleship Collingwood rammed the third-class cruiser Curacao, almost sinking her. The hole in the Curacao was stopped by mullion mats, and the cruiser was towed in Devonport harbor by tugs.

John Daly, the Irish political prisoner who was released from Portland Prison in 1896, after having been sentenced to penal servitude for life has been elected Mayor of Limerick by an unanimous vote, under the new Irish local government act.

There were buried in Watford, Eng., cemetery recently an old lady and gentleman whose combined ages nearly reached 200, namely, Mr. Thomas Young, a retired draper, 105, and Mrs. Mary Glen, widow, aged 94.

Dover, Eng., Corporation, who already own the local waterworks, electric tramways, bathing establishments and machines, etc., are considering a proposal to purchase the local gas and electric light undertakings.

The British Secretary of State for War has placed with Atkinson Brothers, Ltd., Sheffield, orders for 120,000 razors, and cases, 75,000 sailors' clasp knives, 210,000 table knives, 170,000 table forks, 1,200 carving knives, and 1,000 carving forks.

At a meeting, of the Town Council of Glasgow it was decided, by an overwhelming majority to proceed with the conversion of the whole of the tramways in the city to the overhead trolley system. At present horse traction is used except on one line.

St. Luke's Church, Birmingham, Eng., has become so dangerous that the vicar has been ordered to have edifice pulled down. The pews, pulpit, and organ have been removed by the trustees, and the stonework of the building has been sold as it stands for £5.

At a council meeting in a West of England borough complaint was made of the number of pigs that were allowed to roam the streets. The mayor

has been asked to explain how it happened.

Barney Keegan, an engineer on the Illinois Central Railway, had a fight for his life on Friday night with his fireman, Walter Cole, who went sane. The train travelled at the rate of thirty miles an hour for twenty miles while the two were engaged in the struggle. Keegan at last by a superhuman effort stopped the train. Alexander Graham Bell the world

the Japanese lead the world, and that "their method of rowing is far superior to anything we have in this country."

GENERAL.

Earthenware sleepers are in use on some of the Japanese railroads.

Fifty children have been injured by the earthquakes in Southern Greece.

The British Government has decided to erect an observatory on the Mokallam Hills, near Cairo.

The Countess Potocka was recently robbed in Paris of a cloak, studded with precious stones, valued at \$100,000.

The Czar of Russia has ordered radical reform to be instituted at once in the treatment of political prisoners in Siberia.

All the rivers in East Prussia have overflowed and large districts have been flooded with immense damage to the region inundated.

There are more wrecks in the Baltic Sea than in any other place in the world. The average is one wreck in a day throughout the year.

The world's wrecks last year numbered 1,045. Steamers were shown to have a greater immunity from disaster than have sailing vessels.

Col. Kitchener, brother of the Sirdar, with a strong Egyptian force, is besieging El Obeid, the last stronghold of the dervishes in the Soudan.

Germany's exports to the United States last year amounted to \$82,350,514, as against \$92,287,088 for 1897. The decrease was almost wholly in sugar.

At Getten, Queensland, Australia, two sisters and a brother were murdered by fiends, who have since eluded both white detectives and black trackers.

The police in Paris have discovered a man who kills young girls on their way home from work. He springs on them from behind and stabs them to death.

China holds the record in criminal statistics in the number of suicides or attempted suicides annually. Over one million cases is the average for the last five years.

Tiger shooting is always spoken of as almost a thing of the past in India, but 546 were killed in Bengal in 1897, 408 bears in Burmah, and 1,241 wolves in the North-west provinces.

In future all Government officials in Germany who cause the publication of secret documents or give information of State secrets to the newspapers are to be severely punished.

Skates made of gold are popular in St. Petersburg. One lady had the blades of her skates enriched with diamonds. Skates set with pearls and precious stones have also been in fashion.

The plague is increasing in Bombay. The mortality from all causes during the past week was 1111, as compared with 894 in the preceding week. The

society of Toronto has sent a letter to the Mayor asking that action be taken to prevent the use of the Union Jack as a sign by auctioneers.

The Vancouver City Council has passed a resolution asking the Provincial Government to exclude the Japanese from the privileges of the franchise, and to place them on the same basis as the Chinese in this respect.

The Hudson's Bay Company will start a courier for the Mackenzie river and intermediate points next month. Letters addressed care of the Hudson's Bay Company will be delivered in the Mackenzie river country.

At Kentville, N. S., the prohibitionists instituted a crusade against hotel-keepers who were breaking the Scott Act, and the bonifaces retaliated by losing up entirely, much to the inconvenience of the travelling public.

Mr. Kyobashi Senju, one of the largest paper manufacturers of Japan, is at Sault Ste. Marie, inspecting the pulp mills. He supplies five daily papers in Tokyo, and says there is a market in Japan for Canadian pulp.

The balance to the credit of depositors in the Government savings bank on December 31 was \$15,163,498. Deposits for December stood at \$219,208, and withdrawals at \$231,094. In post office savings banks the amount to the credit of depositors at the end of December was \$34,175,018. Deposits during December amounted to \$769,715, and withdrawals to \$726,146.

A scheme is on foot at Ottawa for the formation of a private company to buy up the rights of the Canada Atlantic, Parry Sound, Canadian Pacific and Ottawa & New York Railways at the central facilities and then operate the terminal, charging each railway according to the number of trains handled daily. It is proposed to erect a modern union station.

In all fifty-five applications have been received for private legislation at the next session of the Federal Parliament. Twenty-five are for incorporation, twenty-seven for amendments to existing charters, six for divorce and one for winding up. It would appear from this that there will be an average volume of this kind of legislation in addition to what the Government has to handle.

toowed to roam the streets. The mayor moved that the constable be instructed to arrest all pigs found wandering about the streets except the pigs of councilors.

Few perhaps feel the institution of wedding present giving more than the Prince and Princess of Wales. The calls upon them in this direction are numberless, and, says a gossip, the sum total expended by Their Royal Highnesses in one year on wedding gifts must represent a fortune.

The telephone was used at West Bromwich, Eng., for a novel purpose in connection with a runaway horse, which bolted with the front part of a carriage in the direction of Oldbury. The police in the latter place were promptly apprised of the accident by telephone, and the animal stopped.

The Earl of Meath proposes a scheme of military drill for all lads between 13 and 18 years of age. A committee called the British Brigade Council has been formed to carry out the plans, and Field Marshal Lord Wolseley, General Lord Roberts of Kandahar, and a number of other prominent men have written in support of the movement.

A company has been formed in London with a capital of a million sterling to acquire the publications of Sir William Ingram, including the three popular weeklies. The Illustrated London News, The Sketch, and the Penny Illustrated Paper. Sir William will be chairman, and the company will be called The Illustrated London News, Limited.

The Queen, when she leaves Windsor for Balmoral, is provided with about a dozen copies of a sort of waybill of her journey, which contains a list of all the people in the train, and the compartments in which they are, a complete time-table of the whole journey, and an explanation of the gradients, etc., printed in purple on silk. A further edition is distributed among the Queen's attendants and the railway officials.

UNITED STATES.

Blue carnations are in course of propagation at the Horticultural Hall, Denver.

Lord Herschell has been awarded a diploma of the American Academy of Political Science.

Allegheny miners and operators have reached an agreement, and there will be no general strike in 1899.

The Maine Legislature is considering the incorporation of the American Ice Co., with a capital of \$60,000,000.

It is reported from Santa Fe, New Mexico, that 217 Indians have died from smallpox in Valencia County, and that 600 are now ill.

Indiana expends annually for poor relief through county and township officials about \$1,000,000. About one-half this sum is paid for the care of persons in institutions.

M. Labbe, of Chicago, four years ago loaned a stranger ten dollars, and took in security a leather trunk, which is now found to contain money and bonds to the value of \$60,000.

George Schaffer, a Philadelphia butcher, and his three children, are in a critical condition through drinking coffee containing arsenic. Schaffer is suspected of poisoning the coffee, but denies it.

The first assistant postmaster-general of the United States has issued an order increasing the salaries of all the regular free delivery carriers who provide their own horses or other modes of conveyance, from \$300 to \$400 per annum, beginning January 1 last.

A bag containing nails, screws and lead was substituted for a bag containing 163 silver dollars at the United States mint at Philadelphia, and Herman Kretz, the former superintendent,

with 894 in the preceding week. The deaths from plague were 220 against 154.

All the funerals in Paris are conducted by a single syndicate, which has a licensed monopoly of the business. There is a regular tariff of rates, a first-class funeral costing \$400, and the cheap, or ninth class \$1.

In Brisbane, Queensland, there is a movement on foot to petition the Australian Government for a renewal of free immigration of domestic servants. There is an extraordinary scarcity of servants in Australia just now.

The rebels in Au-Hovi, China, in bands of desperadoes, reinforced by Honan sympathizers, are capturing and sacking cities and doing great depredation. Ku-Yung has been captured. Shan-Chau is being besieged.

Although the health of King Oscar of Sweden continues to improve, his physicians have ordered him to take a complete rest. Therefore His Majesty has entrusted the government provisionally to Crown Prince Gustaf, and has gone to Saltoja-Baden.

The Vatican having arranged to send missionaries to the Soudan, the English Government has opposed it for the moment, informing the Vatican that England wishes first of all to organize on a solid basis the administration of the new territories.

It is reported in Constantinople that certain German capitalists are proposing a loan to the Turkish Government in return for which they seek the grant of a large tract of land in Syria and in Palestine, if possible, for the purpose of establishing a German agricultural colony.

Commissary-General Eagan has been found guilty of the charges of conduct unbecoming an officer and a gentleman and of conduct to the prejudice of good order and discipline by the court-martial, and has been sentenced to dismissal from the United States army, but with a recommendation from the court for the exercise of executive clemency.

ADVANCE IN PRICE OF MEAT.

Due to the Large Number of Cattle Being Exported.

A despatch from Montreal says:—As a result of a decision reached by the Montreal butchers, the price of meat commencing on Wednesday last, has been advanced from one to two cents a pound according to quality.

At present a very large number of cattle are being exported, and as a consequence Montreal butchers have to pay a high price for live cattle. In the summer and fall beef in live weight could be bought for from 21-2 to 3c a pound, but now beef in live weight is hard to get at 41-2 and 5c a pound. As the shrinkage between live weight and dressed weight is about one-half, the cost of meat to the butcher is 9 and 10c. The butchers claim that they have been losing money during the last few weeks, and that a raise of prices to the consumer is necessary.

DERVISHES SURRENDERING.

One Thousand of Ahmed Fedil's Men Reach Omdurman.

A despatch from Cairo says, that upwards of 1,000 men of Emir Ahmed Fedil's force of dervishes have surrendered.

These men have arrived at Omdurman, and 200 horses and a large number of camels and horned cattle are on their way to that place.

and making a man probably lost his way.

BANK ROBBERY IN LONDON.

All the Staff of Paris Bank Taken Into
Custody.

A despatch from London, Eng., says:—The absence of any clue to the thief who abstracted £60,610 in notes from Parr's Bank on Monday afternoon increased the suspicion that there was collusion inside the bank, and all the employees were immediately arrested. The search, however, was fruitless. The notes were taken from the chief cashier's drawer while he was at luncheon. The fact that the interior of the bank is open to the view of passers-by, makes it seem incredible that a stranger could have vaulted over the counter and reached the cashier's drawer without being seen. All the numbers of the missing notes have been published. There were £38,000 in £1,000 notes, and these will be very difficult to handle anywhere as the police of the world have been notified of the robbery and of the numbers of the notes. If the notes are never cashed the Bank of England will be so much the gainer.

Parr's Bank Shares fell off a point to-day on the news of the robbery.

The police agree that if the robbery was committed by outsiders without any aid from within it was the most skilful piece of work of the kind on record.

The bank has offered a reward of £1,000 for the discovery of the thief.

TO RUN 150 MILES AN HOUR.

Proposed "Mono Railway" Between Liver-
pool and Manchester.

A despatch from Liverpool, says:—The Liverpool Chamber of Commerce is favourably considering a proposition to build a "mono railway" between this city and Manchester, over which trains are to run at a speed of from 100 to 150 miles an hour.

Mr. F. B. Bear, the advocate of the scheme, has demonstrated to the satisfaction of the members of the chamber that the new system will obviate the ordinary dangers of railroad travel. Derailments are an impossibility, and there will be fewer collisions than in the two-rail system. The cars intended for the line are to be fitted with wheels in the centre, and these will run on an elevated rail. The position of the coach on the railway may be likened to the saddle packs which hang on each side of the camel's back.

BRITISH WARSHIPS.

Number of Vessels Now Building in a
Record One.

A despatch from London, says:—The record number of British warships is now building, amounting to 119 vessels, ranging from the heaviest battle-ships to tiny torpedo-boat destroyers, the figures being 16 first-class iron-clads, 36 cruisers, 14 sloops and gun-boats, and 53 torpedo-boat destroyers. The armoured ships building at a cost of over £26,000,000 number 28, with a tonnage of over 350,000 tons, the number exceeding by two the entire Russian fleet of battleships, and treble the number of armoured vessels in the American navy. The whole of these ships will be added to the effective strength of the British navy by March, 1903, while the First Lord of the Admiralty, Mr. George J. Goschen, in two months' time, will ask the House of Commons for credits to still further strengthen the British fleet.

MARKETS OF THE WORLD.

Prices of Grain, Cattle, Cheese, &c.
in the Leading Marts.

Toronto, Jan. 30.—We had only a light run of receipts here to-day, as all told only 29 loads came in, including 1,600 hogs. There was no quotable change, but all good cattle were firm, and sold readily.

We had a good enquiry for export cattle. The supply was light, and more choice stuff would have found an easy market at prices ranging from 4 1-4 to 4 3-4c per pound. Prime shipping cattle is wanted.

Butchers' cattle were in good demand, if of fair to choice quality; for the best stuff there was a steady sale, and picked lots were bought as light shippers at from \$4.20 to \$4.35 per cwt. Good to choice butcher cattle sold at from \$3.75 to \$4.12 1-2 per cwt.; medium at from \$3.40 to \$3.62 1-2 per cwt.; and common down to \$3 per cwt.

Most of the sales were in small lots to-day; but here are a few representative transactions:—

One load of export cattle, averaging 1,260 lbs, sold at 4 3-4c per pound.

A load of good butchers' stuff, averaging 1,080 lbs, sold at \$3.90 per cwt.

A load of butchers' cattle, averaging 1,050 lbs, sold at \$3.60 per cwt.

A mixed lot of cows and heifers, averaging 1,020 lbs, sold at 3 3-8c per lb.

A lot of 11 cattle, averaging 960 lbs, sold at \$3.25 and five dollars back.

A lot of 13 cattle, mixed with cows, averaging nearly 900 lbs., sold at 3c, per lb, and five dollars added.

Shipping bulls sell at from 3 1-2 to 4c, with an eighth more for prime bulls, which are wanted.

Stockers are selling well at from 3 to 3 1-2c, and occasionally 3 3-4c, per lb.

Very few milk cows here, less than one dozen; prices rather low, from \$25 to \$45 each. There is no particular enquiry, but a few choice cows may sell well.

Lambs are easy at from \$4.12 1-2 to \$4.37 1-2 per cwt. Supplies lately have been more than ample.

Sheep are unchanged at from 3 to 3 1-4c, per lb.

Bucks are worth from 2 1-4 to 2 3-8 per lb.

Choice veal calves are wanted at from \$5 to \$7 each; common calves are dull at from \$2.50 to \$4 each.

Hogs are unchanged at \$4.25 to \$4.37 1-2 per cwt. for the best, but the average price for good hogs is around \$4.20 per cwt; light are selling at from \$4 to \$4.25; and the outside price for thick heavy hogs is \$3.75 per cwt.

Following is the range of current quotations:—

Cattle.		
Shipping, per cwt.,	\$ 4.25	\$ 4.75
Butcher, choice, do	3.50	4 12 1-2
Butcher, med. to good.	3.25	3 50

BREADSTUFFS, ETC.

WHAT IS KNOWN OF GRIP

THE GERM HAS BEEN DISCOVERED
AND ANALYZED.

How It Spreads and Breeds—Precantio
to Be Taken to Prevent Grip.

The grip germ chose a bad year this time if it wanted to preserve its identity unknown. The medical and scientific world appears to be particularly active these days, and has been making all sorts of new discoveries the last few months. It is little wonder, then, that when la grippe came along it was speedily found out, and now we know all about—or at least a little about—that freaky little germ which has been making so much trouble the past few years.

The grip germ—so we are told by scientists—started on his present tour last November, in Turkey. It followed the lines of commerce westward, and came across the Atlantic in the big liners to New York.

It is interesting to know what kind of an animal this germ is. The microscopical examinations of the germ in the New York Health Department laboratory show that it looks outwardly like a goose egg; that is, when it is enlarged, say, one thousand billion times. It has an outer covering or envelope corresponding to an egg's shell. Within this is a cellular mass of whitish stuff which is very like the white of an egg. In the very middle is the protoplasm corresponding to the yolk of an egg.

THE GERM AT WORK.

This grip germ is constantly at work when in the human system, throwing off the poisonous liquid which causes the grip. It is not the germ itself that makes the disease; it is the excretion, or matter it throws off. The actual size of this little creature is about one-twenty-five thousand of an inch in length. It is utterly unable to move itself. The way it travels is by sticking itself on to some person or thing that is moving. When it gets attached to a person it reaches the mouth or nose in due time. The tongue is one of its first lodging places if it gets into the mouth. There are excellent hiding places among the little stumps and knobs that form the rough surface of the tongue. Though this is an excellent hiding place, the grip germ, being round, like an egg, is soon rolled backward and downward by the constant swallowing motion that is going on in the mouth.

This throws the grip germs into just the places they like best, the mucous membrane of the nasal passages, the throat and the lungs. Here they begin to breed and soon spread themselves all over the breathing region, from the nasal passages of the head, down through the larynx, thyroid gland, trachea, bronchial tubes and lungs. The way the grip germ breeds is by lengthening itself and then dividing in the middle. This operation takes twenty minutes. Each new born germ repeats the same operation in the same time. Marvellous as it may seem, this constantly repeating compound, multiplying process amounts in twenty-four hours to 16,500,000 germs, all produced from one parent! In two days this likely family would increase to 281,500,000. It has been calculated that this two days' produce would form a solid pint of germs or bacteria and weigh a pound.

A DEFICIT OF MANY MILLIONS.

Spanish Colonial Office Unable to Pay Its Soldiers.

A despatch from Madrid says:—The Spanish Colonial Office, which is soon to go out of existence, will close with a deficit of forty million pesetas, \$8,-\$000,000, due to the Spanish soldiers who have been brought back to Spain. This debt will be assumed by the War Office.

El Liberal urges Senor Girona, Minister of the Colonies, to take steps to recover the trust money deposited in the Porto Rican and Cuban treasuries, and belonging to public functionaries. These funds amount to many millions of pesetas, and are not included in the provisions of the treaty of peace.

BRITISH WARSHIPS COLLIDE.

Battleship Collingwood Nearly Sinks the Cruiser Curacao.

A despatch from Devonport, England, says:—The British first-class battleship Collingwood driven by strong currents, to-day collided with the British third-class cruiser Curacao, driving a hole in the cruiser below her water line sweeping off her boats, and damaging a gun sponson.

The Curacao filled rapidly, and began to list. A scene of the utmost excitement followed on board, but the rush of water was finally stopped by collision mats and a number of tugs assisted the cruiser into the harbour, where she was docked. The damage to the Collingwood was not serious.

DAWSON'S IMPROVEMENTS.

A Volunteer Fire Brigade Organized—Liquor License Fee.

The conflagration which wiped out a portion of Dawson City, in the early autumn, caused by a woman using a lighted lamp as a club, to emphasize an argument she was addressing to another woman, appears to have had a sobering effect upon the residents of the golden city of the north. Recent advices from the land of snow and ice state that a volunteer fire department has been organized by Commissioner Ogilvie and a fire engine purchased.

A duty which devolves upon one or two of the volunteer fire company is to see to it that the ice on the river does not become so thick that valuable time would be lost in cutting it in the event of a fire. Every other day the ice is chopped to within a few inches of the water so that a few blows from an axe would give easy access to the water. Despite the coldness of the weather the new fire company put in regular hours of practice every week in handling their new fire apparatus.

A commodious hospital has been established in the city which is supported by public subscription. The territorial council has contributed \$22,000 towards the maintenance of the institution during the present season.

Latest advices from Dawson City state that the members of the Yukon Council of administration have decided to impose a liquor license fee of \$1,000 annually upon all hotels and saloons in the place. What provision will be made with those who have already paid a \$2,000 license fee to the North-West Territories Government has not been learned. This action of Commissioner Ogilvie and his council is giving much satisfaction among the inhabitants of Dawson.

Wheat—There was a heavy advance in wheat in Chicago to-day, and the boom continued until the close. Prices here advanced sharply. Red wheat sold at 70c and white at 71c, north and west. This afternoon holders generally asked 72c. Manitobas were very strong. No. 1 hard, North Bay, sold at 86c, and at the close 87c. was asked. Same, Midland and Owen Sound, was held at 82c. Millers hold off, not caring to pay the advance.

Flour—Firm, with an advancing tendency. Easterners were in the market to-day as buyers, paying an advance of 10c per barrel. Export agents bid the small mills \$3 for straight roller, in bbls. middle freights and \$3.20 to \$3.25 is asked.

Millfeed—Scarce; ton lots of bran at the local mills bring \$14; and shorts, \$16; car lots, middle freights, are quoted at \$13.50 for bran, and \$15 for shorts.

Oatmeal—Firm. Car lots of rolled oats, in bags, on track here, are quoted at \$3.60 per bbl, and in bbls at \$3.70.

Peas—Offerings light and demand fair. Car lots, north and west, sold to-day at 66c; holders generally ask 66 1-2c. Car lots east, 67c.

Oats—Higher again. White oats, north and west in car lots, sold at 29 1-2 to 29 3-4c, and holders now ask 30c.

Rye—Scarce. Car lots, north and west, 54c; and east, 55c.

Buckwheat—Quiet and firmer; offerings light, car lots, outside, 48c.

Corn—Higher. Canadian yellow, Chatham is quoted at 34c. American, yellow, new, offers at 43 1-2c, and new mixed at 42c. No old American now offering.

Barley—Firm. Car lots of No. 1, outsides, are quoted at 48 to 49c.

Buffalo, Jan. 31.—Spring wheat.—Demand limited; market firm; No. 1 hard, 86 1-4c; No. 1 Northern, 82 1-2c; No. 2 Northern, 80 3-4c. Winter wheat—Dull; No. 2 red, nominally 78c; No. 1 white, 78c. Corn—Dull; easier; No. 3 yellow, 40 1-4c; No. 4 yellow, 39 3-4c; No. 3 corn, 39 1-2 to 39 3-4c; No. 4 corn 39 to 39 1-4. Oats—Decidedly firm; No. 2 white, 34 1-2c; No. 3 white, 33 1-2c; No. 4 white, 32 1-2c; No. 2 mixed, 32 1-2c. Barley—Strong; sales of Western, 53 to 55 3-4c. Rye—Nominal; No. 2 in store, 63c. Flour—Firm at advance.

Detroit, Jan. 31.—Wheat—Closed: No. 1 white, cash, 75 1-2c; No. 2 red, cash, and January, 75 1-2c; May, 78 1-2c.

Milwaukee, Jan. 31.—Wheat—No. 1 Northern, 75 1-2 to 76c; No. 2 do., 73 1-2 to 74c. Rye—No. 1, 58 1-2 to 59c. Barley—No. 2, 52 1-4 to 52 1-2c; sample, 45 to 52c.

Minneapolis, Jan. 31.—Wheat—January, 73 1-4c; May, 73 3-4c; July, 74 1-2c. On track—No. 1 hard, 74 1-4c; No. 1 Northern, 73 1-4c; No. 2, 71 1-4c. Flour—First patents, \$3.90 to \$4; second patents, \$3.70 to \$3.80; first clears, \$2.65 to \$2.85. Bran—in bulk, \$10.25 to \$10.75.

Duluth, Jan. 31.—Wheat—No. 1 hard, cash, 75 5-8c; January, 74 1-2c; May, 77 1-8 to 77 1-4c; July, 77 1-2c; No. 1 Northern, 72 1-2c; January, 72 1-2c; May, 75 1-8 to 75 1-4c; July, 75 1-2c. 75 1-4c; July, 75 1-2c.

Toledo, Jan. 31.—Wheat—No. 2 cash, 75c asked; May, 78 3-8c. Rye—No. 2 cash, 58 1-2c. Cloverseed—Prime, cash, old, \$3.60; new, \$4 asked.

Or course this rate of increase does not actually go on. Long before the offspring reach into the millions their rate of multiplication is checked either by lack of food or by the accumulation of their own excreted products which are injurious to them.

But these figures show what an unlimited power of increase these little organisms have. They suggest that in dealing with them people are brought face to face with an enemy that is almost as boundless as the air which we breathe.

Since 1892, when Professor Robert Pfeiffer discovered the grip germ, or bacillus, in Berlin, people have had a dread of the little creature. It was generally thought that these germs travelled in waves or clouds through the air, particularly when the air was thick and heavy with moisture.

Dr. Jenkins, Health Commissioner of New York, now says that this is a mistaken idea. The grip germs may be carried through the air to some extent but for the most part they are conveyed by contact from one person to another. In the constant rubbing together of people in a great city, in friendly hand-shaking, in the scattering of the germs broadcast in public conveyances by the habit of spitting on the car floors, the means of the spread of the germ is unlimited.

It would seem from this that there is absolutely no escape from the all-pervading grip germ. But Dr. Jenkins says there is. His first advice is to keep one's system in a vigorous, healthy condition, so it may be able to resist the grip germs' attack. In addition to this, Dr. Jenkins prescribes some simple tonics and cleansing and disinfecting remedies.

HOW TO AVOID AN ATTACK OF GRIP.

Dr. William I. Jennings gives the following advice as to the best means of warding off an attack of grip. He says:—

"There is a general impression that grip germs flourish best in the mild foggy, unseasonable weather of winter. It has been found lately that the weather has absolutely nothing to do with the direct breeding of these germs. But these disease germs attack persons during times of sudden change of temperature because the human system is apt at such times to be below the normal and unable to resist their onset.

"Individuals, for self protection, must rely upon strict observance of those conditions which their own experience has shown them conduce most to their well being. Nourishing and well-cooked food, wholesome drinks, sufficient sleep and personal cleanliness are essential. We cannot all eat the same food, drink the same fluids, or live by identical iron-clad rules.

"Every one must judge for himself, but he must certainly avoid irregularity in hours, over-eating, abuse of stimulating drinks, insufficient sleep and exposure to conditions that he knows are likely to give him a cold in the head or a sore throat, for the germs of influenza find in a mucous membrane already weakened by inflammation a soil in which they flourish luxuriantly.

"It is especially desirable to avoid overheated rooms, or an atmosphere that is foul with exhalations from the human body or other impurities. Sudden changes of temperature should be guarded against by paying particular attention to the clothing, making changes in the outer clothing rather than in underwear. It might be well also to wash or rinse the nose, mouth or throat night and morning with an unirritating solution of some one of the numerous toilet disinfectants that can be found in any drug store.

"As an additional preventive, use quinine for its tonic effects simply, five grains in the morning after breakfast or two grains night and morning."

HOUSEHOLD.

OLD NEWSPAPERS.

Kindling the fire is not the only use to which old newspapers may be put. They might be rightly termed valuable rubbish, something which the thrifty housekeeper never wastes. Moths have a strong dislike to printer's ink, so for that reason they make a first-class carpet wadding. Use a generous quantity unfold and lap them well. Also use them to line chests and drawers, where woollens are kept, and for shelf-paper they have the same recommendation. They cost nothing and can be changed as often as when soiled, whereas regular shelf-paper, while it of course, looks more artistic, is sometimes used too long for cleanliness.

When taking up the ashes each morning, try spreading a paper upon the floor to catch anything that may fall from the shovel. Also when ripping an old garment. It saves you much work of brushing up. We knew a girl who always combed her hair standing over an open newspaper. But old papers find their chief mission about the kitchen sink, and it is a capital idea to keep a pile of them on the shelf overhead or the closet beneath. Always spread one upon the sink shelf before you begin to clean the lamps. It will catch all charred bits, all oil, and how quickly it is thrust into the fire then the work is finished. After a boiled dinner or a still greasier dinner of mutton, use pieces of newspaper to remove the surplus fat. Wipe the grease from the bottom of dishpan, the sink-scraper, and whenever it has collected in the sink. When, however, the pipe becomes stopped with grease, do not think you must get a plumber, or trouble the men-folks. The best treatment we have found is to sprinkle a heaping teaspoonful of soda down the pipe, then pour on a kettleful of boiling water. It melts the grease at once.

SOME GOOD RECIPES.

Swiss Fritters.—Slice your stale bread nearly an inch thick, cut round with a cake-cutter and fry quickly in deep, hot fat. Dip each round, as soon as done, into boiling water for one second, to remove superfluous grease. Spread the fritters, as fast as they are fried, and dipped, with powdered sugar, wet up with lemon juice. Cover and keep hot until needed.

How to Distribute Raisins in a Pie.—When the mince meat is ready to be put in the crust prepare the raisins and put them in a basin on the stove with enough water to cover them. Cook until tender; after you fill the crust you can put raisins in so that about same number will come in each piece. Then, if you wet the edges of the crust so that no juice can escape, you will never know by the taste that the raisins were not cooked with the mince-meat.

Relish for Chops.—Pound fine an ounce of black pepper, half an ounce of allspice, an ounce of salt, half an ounce of scraped horseradish, and half an ounce of shallots, peeled and quartered. Put these into a pint of mush-

BANK OF ENGLAND CURIOS.

One is a Five-Million-Dollar Note—Paper That Circulated over 100 Years.

The Bank of England note library is one of the most interesting places in the world. It is a small, arched room in the bowels of the earth, flanking a dimly-lighted lane leading to impregnable vaults of gold, and is in charge of two or three gentlemen, who sit at a desk silently counting bank notes, and tying them up in neat, compact parcels.

A London Daily Mail representative had occasion to go there, and he was shown, as all privileged visitors are shown, three framed Bank of England notes of considerable historic interest. They are carefully guarded and preserved, like the other many treasures in the bank.

The first note was for £1,000, which was given by Alexander Cochrane, afterward Lord Dundonald, in payment of a fine inflicted upon him some time before the battle of Waterloo. Cochrane, after destroying the French fleet in the Aix Roads, was accused and convicted of a stock-jobbing fraud, and part of his sentence was the payment of a fine of £1,000. Cochrane, whose sentence was years afterward annulled, bitterly resented his punishment, and when, in July, 1815, he tendered the note in payment of the fine, he made the following pathetic indorsement upon it: "My health having suffered by long and close confinement, and my oppressors having resolved to deprive me of property or life.

I SUBMIT TO ROBBERY.

to protect myself from murder, in the hope that I shall live to bring the delinquents to justice.—Cochrane Grated Chamber, King's Bench Prison, 3d July 1815."

Another interesting note is one for £25, which was issued on July 9, 1736, and was not returned to the bank until March 9, 1847—111 years after. It had evidently passed through many hands during that long time, as it is torn in many places, and but for the supporting glass and frame back would totter to pieces.

The third note is remarkable as the only one-million-pound Bank of England note ever issued. Its history is not known, and even the date of its issue is a mystery, as either much circulation or voracious moths have been responsible for the absence of big slices of this unique slip of paper. It is known that it was issued between the years 1782 and 1807, as it bears the name of Mr. Ab. Newland, who was during that time Governor of the Bank of England, but the purpose of its issue is still a secret. In the left-hand corner is written "No. 1." It was the first and the last. You cannot get a bank note now of a greater value than £1,000.

And then the gentleman who so carefully explained the points about the ancient notes turned to the modern ones. They formed a single row of small parcels on the desk.

"How many are there—two hundred?"

"Fifty-seven thousand," quietly replied the official, "that is about the number we have every day." And he spoke about those 57,000 just as unconcernedly as a grocer would of a dozen of eggs. It is extraordinary what familiarity does.

A GENTLEMANLY BRIGAND.

He is also Both Generous and Kind-Hearted.

A picturesque and humorous brigand is Bernardo Viola, whom the Italian authorities are just now trying to catch. He is not an ordinary, vulgar cut-throat, but a gentlemanly fellow, who has a host of friends and who is described as being both generous and kindhearted.

Viola expects parish priests to support him, and whenever he finds himself short of money he informs the priests of the facts and insists that it is their duty to supply him with the necessary funds. The priests who comply with his request find Viola a pleasant visitor. He takes just what he thinks they can afford to give him and then he goes his way satisfied.

Those priests, however, who refuse to comply with his demands, very soon discover that he is not to be trifled with. Viola wastes no words on them, but simply lays hands on all the money and other valuables he can find in their homes and then makes off with them. Only once did he let anger get the better of him. That was when a sturdy priest tried to prevent him from plundering his home. Viola would not stand that, and so he promptly slew the unfortunate priest.

Viola's great desire at present is to form a partnership with another bandit, named Raimondo Pace, for whom the police are also looking. The two men are well known throughout the district of Aquila, and many think that for that very reason the authorities ought to be able to capture them easily. Viola, however, has many friends and relatives there, and whenever the police or soldiers show themselves these loyal fellows presently send word to the bandits and thus enable them to get into a safe hiding place.

As a matter of fact, too, the number of policemen in the district is entirely inadequate and the result is that Viola and other brigands do pretty much as they please. It is said that some of these lawless men have been plundering for the last quarter of a century, and, if so, the chance of their capture in the near future seems rather doubtful.

A Victim of Neuralgia

MRS. ROBERTS, OF MONTREAL TELLS A WONDERFUL STORY.

She Was a Sufferer for Some Seven Years, and Medical Treatment Failed to Give Her More Than Temporary Relief—A Herald Reporter Investigates the Case. From the Herald, Montreal.

"I thought it was something wonderful when I went three days without being sick," said Mrs. Annie Roberts to a representative of the Montreal Herald, referring to her remarkable recovery from an illness of over seven long years. Mr. and Mrs. Roberts reside at 84 Wolfe street, Montreal, and the reporter was cordially welcomed when he went to enquire as to the truth of the report that Mrs. Roberts had been restored to health through the use of Dr. Williams' Pink Pills. Mr. and Mrs. Roberts came to Canada from England a little more than five years ago, and Mrs. Roberts' illness began while still in the Old Country. "I was really the victim of a combination of troubles," says Mrs. Roberts. "For several years, neuralgia with all its excruciating pains, has been my almost constant attendant. Added

True Greatness In Medicine

Is proved by the people who use it. More people are cured of all diseases, more cases of sickness have been cured by Hood's Sarsaparilla than by any other medicine in the world. The preparation, proportion of its ingredients, Sarsaparilla and unequalled.

WINTER HEALTH.

Avoid Colds.—To avoid taking cold, keep the stomach warm when the stomach through the nose or trills liberally with solution, or with common salt has pays not to sit down without first putting on warm feet.

Warm Feet.—No wear thick shoes whose feet sweat, they can get along better when wearing thin for others thick winter wear.

Instinct.—"When hockey thrash the Louis doctor: "Wholes arrest the pupil and that a plenty of fruit-thinking about."

Long Life.—"If you live long let him call all the well-authenticated have been Women live longer women longer than mothers longer than surprisingly large tenarian women has eight or more child.

Breathing.—"Two Pruessing, of Milwaukee consumption. He being exercises, expansion of the chest as much breathing with the word, setting at work of the chest. The thus induced toned Pruessing is now an athlete of much.

The Hair.—"In a people live much seldom have gray old age. As a brings on premature summer's Newport hatless was not a

WINTER HEDGES

Avoid Colds.—To avoid taking cold when the stomach through the nose or trills liberally with solution, or with common salt has pays not to sit down without first putting on warm feet.

Warm Feet.—No wear thick shoes whose feet sweat, ably get along better when wearing thin for others thick winter wear.

Instinct.—"When hockey thrash the Louis doctor: "Wholes arrest the pupil and that a plenty of fruit-thinking about."

Long Life.—If you live long let him or all the well-authenticated have been Women live longer women longer than mothers longer than surprisingly large tenarian women has eight or more child.

Breathing.—Two Pruessing, of Milwaukee consumption. He being exercises, expansion of the chest as much breathing with the word, setting at work of the chest. The thus induced toned Pruessing is now an athlete of much.

The Hair.—In a people live much seldom have gray old age. As a brings on premature summer's Newport hatless was not a

steep for a fortnight before straining. A teaspoonful or two of this, mixed with the melted butter, which forms the gravy of chops or steaks, is an acceptable addition.

Rice Griddle Cakes.—Two cupfuls cold boiled rice, one pint flour, one teaspoonful sugar, half a teaspoonful salt, one and a half teaspoonfuls baking powder, one egg, little more than half a pint of milk. Sift together flour, sugar, salt and powder; add rice, free from lumps, diluted with beaten egg and milk; mix into smooth batter. Have griddle well heated, make cakes large, bake nicely brown; serve with maple syrup.

Onion Soup With Cream.—Take two quarts broth, four large onions, two tablespoonfuls butter, one tablespoonful flour, one cup cream, three egg yolks. Cut the onions into halves, slice them very fine and fry in the butter until lightly colored; dredge with the flour; stir with a spoon for two minutes longer and then moisten with the broth or water, let boil for one hour, season with salt and pepper. Beat the egg yolks and the cream together and add to the soup when serving without letting it boil. Serve sippets of bread and grated Parmesan or Swiss cheese separate.

English Stew.—This is an excellent preparation of cold meat, which is first cut in slices and then sprinkled with pepper, salt and flour. Lay them in a dish, and on them place a few pickles of any kind or a small quantity of pickled cabbage. Take a teacup half full of water, add to it a small quantity of the pickle vinegar, or a small quantity of catsup, and add gravy that may be set by for use. Stir all together, and pour over the meat and set it in the oven for about half an hour, and serve hot.

Duchesse Cake.—One and a half cupfuls butter, 1 cupful sugar, 6 eggs, 1 teaspoonful baking powder, 1 pint flour, 1 teaspoonful extract cinnamon. Rub the butter and sugar to a light cream; add the eggs, 2 at a time, beating 10 minutes between each addition. Sift together flour and powder, add to the butter, etc., with the extract; mix into a medium thick batter, and bake in small shallow square pans, lined with thin white paper, in a steady oven 30 minutes. When they are taken from the oven, ice them.

Pumpkin Pie.—Take large sized pumpkin, firm, of deep color, wash and boil just as you would potatoes with skin on; when thoroughly cooked pass carefully through sieve, clearing it of all lumps, seeds, etc. Take 1 cup brown sugar, 1 cup molasses, mix well together. Beat the whites and yolks of four eggs well together and mix with the pumpkin thoroughly; then add the molasses and sugar, pinch of salt, 4 teaspoonfuls of best ginger, 1 teaspoonful ground cinnamon; take 1 cup milk, mix well all together. This is intended to make 6 pies; should pumpkin not be a large one, add less milk so as not to get too thin. Bake in deep plate lined with plain pastry. Spanish pie made in same way.

A CHEAP COW.

Stranger—What do you value your white cow at?

Farmer Furrow—She ain't worth over \$10. Taxing cows this year?

Stranger—I am not the assessor. I am an official of the Quick Time Railroad. Your cow was killed this morning. Here's the \$10. Good day.

ZEAL THAT FAILED.

A Telegraph Operator's Effort to Please an Official By Attention to Duty.

"The first office that I found myself in possession of," said the retired telegraph operator, "was a little way station where there was not much else to do but to report the trains. I had the night trick, and the trains being few and far between I spent most of my time dreaming of advancement. One night soon after I had taken the office I was called to the key, to receive a message that came over the wire addressed to a railroad official who chanced to be visiting some relatives who lived about three miles from the office where I was.

"'Violet is dying,' the message read, and those three words sent the shivers up and down my back, as I saw with my imagination a fair-haired, blue-eyed little girl dying, with her father away from home. Then it suddenly flashed upon me that here was a chance to win promotion by hurrying the message out where the father was. I was alone in the office, and there was no one living near by whom I could send it.

"At last I determined to take it myself. I knew I had no business leaving the office, but I considered it a chance to win recognition that I might never have again. It was before the time of the bicycle and as there was no horse to be had I started out afoot. There was a train leaving about one o'clock in the morning, and I had figured it out that the anxious father would take that train for the city, and that I would be able to get a ride back to the station with him, and have at the same time a chance to create a good impression.

"It was in the fall of the year and raining as hard as it could pour, with good prospects that it would turn to snow before I got back. I was a little bit hazy just where the party was staying, but after braving any number of dogs and arousing any number of farmers, I found the right place and delivered the message. The man, with a white face, hastily tore the envelope open, and read the contents, while I waited for him to say: 'Well done, thou good and faithful servant!'

"But he didn't. He said things that I would not care to repeat, and called me any number of names that were not the least bit complimentary. It made me mad to see such an exhibition of unconcern over such a serious matter. And I was about to say so, when he broke in with another torrent of strong words, of which I caught, 'fool woman,' 'pug dog,' 'glad of it.'

"Then I comprehended, and as I tramped wearily back to the office I had deserted I had plenty of time to take a solemn vow to never again bother my head about what might come over the wire."

ON THE ROAD TO REFORMATION.

Wearry Walker—Say, mum, could yer give a feller a leetle help ter keep him from breakin a good reserlution?

Old Lady—Of course, my good man. Here's a quarter for you. Now, tell me your resolution.

Never ter swipe anything, mum, ez long ez I could get money this eary. So long.

OLD VENETIAN COINS.

Venetian coins of 1570 and 1577, bearing the name of one of the doges, have been found in Mashonaland, in the interior of South Africa.

to this I was attacked with rheumatism and palpitation of the heart, and for the last five years, was not able to get out of doors during the winter months. Sometimes I felt as though those terrible pains in my head would drive me mad; my nerves were all unstrung and a knock at the door would send me nearly crazy. I was treated at different times by four doctors since coming to Montreal, but without any lasting good, and I had given up hope of ever being better on this side of the grave. A friend of mine whose father had been helpless for two years, but was restored by Dr. Williams' Pink Pills, urged me to try them. My husband asked the doctor who was attending me what he thought of them, and the doctor replied that he believed them to be a good medicine. This persuaded me to begin their use. No one who sees me now can form any idea of my condition when I began taking Dr. Williams' Pink Pills, and I had only taken three boxes when I began to recover. But seven years of pain had nearly shattered my constitution and I did not look for a speedy recovery, and I was more than gratified to find that after I had used I think about a dozen and a half boxes, I was fully restored to health. It seemed all the more wonderful because the doctors both in England and here never done more than give me temporary relief, and their treatment was much more expensive. The past summer was the first in years that I really enjoyed life, and I was able to go on a visit to Radnor Forges. Dr. Williams' Pink Pills have also been of much benefit to my daughter Violet. She is just nine years old, but she suffered a great deal from pains in the back and sick headache, but the pills have made her feel all right again."

"I never fail to recommend Dr. Williams' Pink Pills when any of my friends are ill," said Mrs. Roberts. "While visiting at Radnor Forges, I urged a young lady friend who has long been a sufferer from curvature of the spine, and obstinate constipation to try them, and they have done her a vast amount of good."

The reporter confesses that Mrs. Roberts' story is a wonderful one. That she is now thoroughly well is clear from her face, her manner and her happy spirit. Mr. and Mrs. Roberts are intelligent and reliable people. Mr. Roberts is head engineer in the biscuit works of Vian & Frere, the wealthiest firm in this line in the Dominion, and he fully endorses the good words his wife has to say in favor of Dr. Williams' Pink Pills. In fact he says the speedy cure they wrought in his wife's case has saved him many dollars.

Dr. Williams' Pink Pills have no purgative action, and so do not weaken the body. They build up the blood by supplying it with the elements which enrich it, and strengthen the nerves. In this way they cure all diseases having their origin in poor and watery blood. Always refuse the Pink colored imitations which some dealers offer. See that the full name Dr. Williams' Pink Pills for Pale People is on every package you buy. If in doubt, send direct to the Dr. Williams' Medicine Co., Brockville, Ont., and they will be mailed post paid at 50c a box, or six boxes for \$2.50.

OLD CHURCH UNEARTHED.

The foundations of an ancient English church have been unearthed at Waverley Abbey, near Farnham, Surrey, as well as the remains of the monks' dormitories, the kitchens and the disciplinary cells. Several old oaken coffins were discovered in a perfect state of preservation, among them that of William Manduit, third Baron of Hanslope and King's Ob-awberlain, who was buried in 1194.

Railroad Speed is a Trifle, Even to the Little Fellows.

The speed of the flight of birds is often overestimated. The late Dr. Gottke, of England, supposed that migrating birds travelled at the rate of 180 miles an hour, which is almost certainly impossible; and estimates of 140 and 150 miles an hour are frequently made.

A recent flight of carrier pigeons, from the Shetland Isles to London brought out a sustained average speed of 37 miles an hour, for 16 hours. This, however, included stops for rests, and probably a good deal of circling to spy out the way, for a pigeon does not fly straight to the mark. Better speed was once made from Paris to Spa—250 miles, in 5 hours, but even this gives no hint of what a pigeon could do over a measured ten miles. Some authorities put their speed as high as 100 miles an hour; it is certainly very nearly that.

Sir Ralph Payne Galloway estimates the flight of a teal duck at 140 miles an hour, but this again is doubtless in excess of the truth. It is well known that when gales exceed 40 miles an hour only the strongest flying birds can make much headway against the wind. Anyone who has travelled at a mile a minute on the pilot of an engine knows that the air resistance is felt as an almost crushing force.

Audubon, the naturalist, once shot in Louisiana some pigeons in whose crops he found rice of a kind which couldn't have been eaten nearer than South Carolina, 350 miles away. From the state of digestion of the rice, he concluded that it had been eaten six hours earlier. Hence he figured out a speed of a mile a minute for the whole distance, though manifestly such computations can not be very reliable. He placed the speed of wild ducks at 45 miles an hour.

In general, it is not believed that any bird ever flew more than 100 miles an hour, though it may be true. The swifter birds can certainly do from sixty to ninety miles, perhaps more, and almost any bird, forty to fifty miles an hour. A frequent source of error in estimating bird flight is the fact that, at an even rate of speed, a small bird seems to be going much faster than a big one.

The carrier pigeon, the frigate bird, the falcon and the eagle are the champions among big birds. The swallow is not particularly fast, but seems swift because he is so little.

SCIENCE AND LIFE.

We are Indebted to the Former for the Latter.

Science Gave us Dodd's Kidney Pills. Dodd's Kidney Pills Give us Security From Death—Mr. Charles Dean's Case Proves This Claim.

London, Jan. 30.—At this season, when everybody one meets is complaining of "the Grip," "Backache," or some other similar complaint, it comes as a relief to know that there are some diseases from which people can free themselves at very slight expense, and scarcely any trouble.

When we find that these diseases have for centuries been looked upon as incurable and have carried hundreds of thousands to untimely graves, we have reason to be thankful to science and its votaries, who have given us the means to free ourselves from this

the means to free ourselves from this horrible nightmare of Death.

As everyone knows, Kidney Diseases have, until less than ten years ago been looked on as utterly incurable. Hundreds of thousands have died of them. Until lately there was no medicine known to man that would either relieve or cure them.

To-day, thanks to the wonderful medicine known throughout the civilized world as Dodd's Kidney Pills, Kidney Diseases are no more dangerous than a common cold.

Proof of this fact has been given by thousands of startling cures, by Dodd's Kidney Pills, of cases that the best physicians had "given up."

The latest evidence in this city comes from Mr. Charles Dean, an employee at the City Hotel.

Mr. Dean suffered for three years with terrible pains in his back. He could get no relief from any of the many medicines he used.

One day a friend advised him to try Dodd's Kidney Pills. He did so. As a result he is now as strong and well as he ever was. Dodd's Kidney Pills, he says, are worth their weight in gold. So they are to victims of Kidney Dis-

Death of Mrs. Hawley.

Alberta E. Stover, second wife of George Hawley, North Fredericksburgh, passed quietly away on Saturday. Deceased had been troubled with pulmonary trouble for some time. She was an estimable lady and much regret is expressed at her untimely demise. Deceased was 28 years of age. The funeral took place on Monday to the Eastern cemetery and was largely attended.

Death of Stanley Gordon.

Geo. Stanley Gordon passed quietly away at the residence of his parents, Mr. and Mrs. Geo. Gordon, Bridge St., on Saturday morning, after a two weeks' illness of pneumonia. Deceased was 25 years and 7 months of age and an estimable young man. He never enjoyed robust health, and it is doubtful if he ever recovered from the shock he received when he was stabbed by a tramp a few years ago, while clerking in Radford & Son's store. The funeral took place from the W. M. Church on Sunday, the remains being placed in the Western cemetery vault.

Telephonic Conversation:
Hello number 113.
Is that Boyle & Son, hardware merchants?
Yes.
Is there any truth in the rumor that you are selling goods so cheap that people say you have compromised with your creditors?
We have never asked for a compromise; are selling cheaper than ever; are stronger financially than we ever were, and while we have unlimited credit, are buying for cash, and giving our customers the benefit of close buying.
I am glad to hear of your success: will call in a day or two with that order for fitting up my cheese factory for spring.
Thanks! tell your friends, "We are all right," and remember,
BOYLE & SON.

Their First Defeat.
The Napanee Hockey Club was defeated at Picton on Wednesday night by a score of 3 to 0. Napanee played with six men owing to the absence of Harold Ward through illness. When Napanee arrived in Picton the puck chasers of that town agreed to drop off a man, but at seven o'clock in the evening, when it was too late for Napanee to secure another man, the Picton team went on the ice with seven men. Despite this handicap Napanee kept their opponents hustling. While the Picton men were perfectly within their rights in playing seven men still we venture to say had the positions been reversed Napanee would not have done so. At Napanee Picton was defeated by 13 goals to 2. The Napanee sports who accompanied the team put up \$20 that the Napanee team can defeat Picton on neutral ice. Picton covered it and the game will be played either at Belleville or Deseronto. The Picton men have a string attached to their \$20, however, as they asked for two days to consider the matter. The Napanee team was as follows: Goal, McCoy; point, Briggs; cover point, Lafferty; forwards, Rogers, Wagar, Embury. Mr. Bartha, of Deseronto, acted as referee.

We have a line of Ladies' Chocolate Grain Lace Boots, suitable for skating or school wear marked this week at \$1.25, worth \$2.00. HAINES & LOCKETT.

Parish of Selby Confirmation.

The Lord Bishop of Ottawa held a Confirmation in the Parish on Thursday, Jan. 26th. Thirteen candidates were presented by the missionary. Four others were prevented by illness from receiving the apostolic rite. Bishop Hamilton won all hearts by his earnest and fatherly addresses and the deep interest he took in all that concerned the well being of those on whom, "after the manner of the holy apostles," he was called upon to lay his hands to assure them of the sign of his gracious goodness towards them. Any one present could not but feel that the presence of such a father in God amongst us was in itself a benediction. The services were simple and for that reason all the more impressive. It was followed by a celebration of the holy communion at which all the newly confirmed and a large number of the congregation received. There were present besides the Bishop and the incumbent of the parish, W. G. Swayne, Reverend Rural Dean Forneri and Rev. A. Jarvis, of Napanee. Mrs Burritt, organist of S. Mary Magdalene, Napanee, took charge of the musical portion of the service. The local choir rendered their part of the service reverently and effectively.

Close's Mills will grind every day.

Jas. A. Close.

The Trenton Advocate, a newly well edited sheet, has been enlarged to 12 pages. Percy, the infant son of Mr. and Mrs. Edward Beasley, Hay Bay, was placed in the Eastern vault on Thursday.

David McFarland, an esteemed resident of Lennox, was placed in the Eastern vault yesterday. He was 84 years of age.

Mr. Hudson had Sam Davy before the Cadi yesterday over some trouble, arising out of the removal of a summer house from Hudson Park. The case was enlarged.

A party of friends assembled at the residence of Mr. J. A. Bell, Morven, on his return from the Kingston General Hospital and presented him with an address on behalf of the Sunday school

Children Cry for **CASTORIA.**

An account of an "At Home" of the Camden East Council, Canadian Order of Chosen Friends, at which Mr. and Mrs. Alex. Howie were presented with two handsome chairs, accompanied by an address, is unavoidably crowded out this week together with other interesting matter.

The Minto Minstrels to-night in the Brisco Opera House. The company is composed of twenty-five talented performers from among the most popular entertainers in Kingston, and give a bright up-to-date entertainment not surpassed by any minstrel organization which has ever toured Canada.

A CARD.

We, the undersigned, do hereby agree to refund the money on a twenty-five cent bottle of Dr. Wills' English Pills, if, after using three-fourths of contents of bottle, they do not relieve Constipation and Headache. We also warrant that four bottles will permanently cure the most obstinate case of Constipation. Satisfaction or no pay when Wills' English Pills are used. W. S. Detlor, T. A. Huffman, A. W. Grange & Bro., Napanee.

THE CUMBERLAND.

At anchor in Hampton Roads we lay
On board of the Cumberland, sloop-of-war,
And at times from the fortress across the bay
The alarm of drums swept past
Or a bugle blast
From the camp on the shore.

Then far away to the south up rose
A little feather of snow white smoke,
And we knew that the iron ship of our foes
Was steadily steering its course
To try the force
Of our ribs of oak.

Down upon us heavily runs,
Silent and sullen, the floating fort;
Then comes a puff of smoke from her guns
And leaps the terrible death,
With fiery breath,
From each open port.

We are not idle, but send her straight
Defiance back in a full broadside!
As hail rebounds from a roof of slate
Rebounds our heavier hail
From each iron scale
Of the monster's hide.

"Strike your flag!" the rebel cries
In his arrogant old plantation strain.
"Never!" our gallant Morris replies.
"It is better to sink than to yield!"
And the whole air pealed
With the cheers of our men.

Then like a kraken huge and black
She crushed our ribs in her iron grasp.
Down went the Cumberland all a wrack,
With a sudden shudder of death
And the cannon's breath
For her dying gasp.

Next morn, as the sun rose over the bay,
Still floated our flag at the mainmast head.
Lord, how beautiful was thy day!
Every waft of the air
Was a whisper of prayer
Or a dirge for the dead.

Ho, brave hearts that went down in the seas!
Ye are at peace in the troubled stream
Ho, brave land, with hearts like these,
Thy flag, that is rent in twain,
Shall be one again
And without a seam!

—Longfellow.

Jas. J. Wemp, of Amherst Island, died at Kingston on Wednesday, aged 65 years.

John H. Roblin, of Adolphustown, while driving on the ice last week broke through and came near being drowned. Mr Roblin lost his horse and rig. On the same day John Ruttan met with a similar experience, his horse being now at the bottom of the bay.

Bishop Hamilton, of Ottawa, administered the rite of confirmation to twenty-two candidates at the church of S. Mary Magdalene on Wednesday evening of last week. Revs. Jarvis, Reeve, Swayne and Rural Dean Forneri assisted in the services.

The Acton Free Press of Jan 5th. contains an extended notice of the marriage of C. Austin Robinson, of Violer, son of Prof. Robinson, linguist, and Miss Annie Bryers, daughter of Rev. Wm. Bryers, of Acton. The wedding was performed on Dec. 28th. by Rev. Wm. Bryers assisted by Rev J. A. McLachlan, M. A. The bride was attended by her sister, Miss Nettie Bryers, and Miss Elsie Bartle, Niagara Falls. Robt. Garney and master Brandon Bryers, supported the groom. The bride is referred to as one of Acton's popular young ladies.
